Comments:

UG Course on 26.02.12

Session - 01

- Venous cut down.
- Dressing / pound cleaning.
- Ascetic tap.
- I really find no less content, so it's difficult to comments how to improve it.
- Can include management of head u=injury, RTA.
- Dressing procedure.

- At would be better if power point presentation indoor shown which contains the emergency situation.
- Central venous line manikins are not good enough, does not give the feel of skin.
- Should be practiced with all aseptic precautions.

Session – 02

- Excellent basic skills
