

## UG Course on 21-1-2012

Nineteen students from BMC attended the UG Basic Skills Course on 21<sup>st</sup> Jan 2012

Some of the comments are reproduced below:

- *On the whole a very helpful demonstration should be included as a routine course at the beginning of internship, which intern would help interns practice & give them enough confidence to avoid experiments on patients*
- *Thanks for the course offered.*
- *CPR training was very good*
- *Should be mandatory for candidates before start of internship.*
- *It very good practice learning session*
